Preface

The West Virginia Wesleyan College Fact Book is a summary of statistics gathered from various sources throughout the college. I would like to thank all of the many campus departments for their cooperation and assistance without which it would not be possible to provide this document.

The purpose of the Fact Book is to provide a useful resource for commonly used information about West Virginia Wesleyan College. The information included in this book comes mainly from management reports and college databases. When viewing the report please pay careful attention to the dates listed on the tables and charts.

This is the ninth edition of the West Virginia Wesleyan College Fact Book. I am always looking for ways to improve both the kinds of data and the presentation of the data included in this document. If you have any questions about the information or suggestion for improvements I would welcome the opportunity to discuss them with you.

****Distance Education** is an academic extension of West Virginia Wesleyan College, offering college-level courses designed for home study by students not enrolled in a campus based post-secondary program of study. In the Fall 1996 a rolling enrollment style registration was implemented in which a student could register for courses anytime during the year. The number listed here is as of the official date of enrollment for Fall.

***** The MBA Program** redefined full-time status from 9 credit hours to 6 credit hours per semester for Fall 1999. This change will inflate the number of full-time and FTE student compared to previous years. The figure that should be used to compare to prior years is the Head Count Enrollment.

Fall 2001 was the first year for tracking of 5 Year MBA Students. These students will be officially counted in the Undergraduate Headcount and FTE numbers but are also enrolled in one or more masters level courses.
